

Assessing Emergencies in the School Setting

Missouri Department of Health and Senior Services

Bureau of Community Health and Wellness

School Nurses Association

Bureau of Emergency Medical Services

Missouri Emergency Medical Service for Children

Introduction and Course Overview

Course Plan

- This course is designed to assist the School Health Official in recalling the elements of the essential assessment of a student with an urgent or emergent problem.
- This course will inform the School Health Official how to integrate with the local Emergency Medical Responders, EMTs and Paramedics.

Objectives for this Course

- By the end of this course, the School Health Official will be able to:
 - Identify emergency mechanisms of injury or the presence of serious medical issues
 - Perform a quick assessment
 - Make a determination of the severity of the issue based on the assessment
 - Implement a plan of correct action for the situation
 - Perform a reassessment

Introductions

- What are your expectations from this course?
